Re: CON Determination and Letter of Intent: Yale-New Haven Hospital Major Replacement of Patient Monitors

Dear Commissioner Vogel:

Enclosed for your consideration are two documents relating to the replacement of patient monitors and monitoring stations at Yale-New Haven Hospital (YNHH): (1) a Request for CON Determination from OHCA whether a CON is required for the replacement of urgently needed patient monitors and monitoring stations in the Hospital's operating room and recovery areas, the aggregate cost of which is below the \$1M threshold; and (2) a Letter of Intent for replacement of patient monitors and monitoring stations for the remaining patient care areas in the Hospital, which total in aggregate approximately \$6.5 million. The Letter of Intent also asks OHCA's consideration regarding whether the aggregate purchase of patient monitors and monitoring stations should be subject to CON approval.

As you know, patient monitors are electronic devices routinely used in acute care hospitals to continuously monitor a patient's vital signs and physiological conditions. This information is communicated to hospital clinical personnel through centrally-located patient monitoring stations. These routine patient care support devices do not constitute major medical equipment. Each patient monitor costs between approximately \$10,000 and \$40,000. Each monitoring station costs between approximately \$40,000 and \$100,000. The equipment must be replaced routinely and has a useful life of approximately ten years. Although the equipment could be purchased separately, in order to obtain favorable discounted pricing, YNHH is negotiating with a single vendor to support a plan for replacement of all patient monitor equipment where necessary throughout the Hospital over a multi-year period. Considered in the aggregate, the cost of replacing this relatively minor and routine equipment can easily exceed the \$1 million CON capital expenditure threshold raising the possible need for CON approval. As reflected in the enclosed documents, we ask your review and consideration concerning whether for CON purposes the patient monitors should be recognized as multiple or aggregate purchases of minor equipment not requiring CON review.

Replacement of patient monitors and monitoring stations in the operating rooms and recovery areas has been expedited as a separate project because of a special urgency. Due to several recent changes in vendor ownership, some of the major monitoring equipment in the operating room and recovery areas will soon no longer be supported by the current vendor. For this reason we ask that OHCA expedite consideration of the CON Determination for the operating room and recovery area monitor replacement project.

The replacement of monitors and monitoring stations in both operating room areas and other areas of the Hospital will be covered by a new main vendor agreement, as the Hospital is negotiating with Philips Medical Systems to purchase a large number of patient monitors over the course of several years. Given

the proposed volume of monitors due to the size of YNHH, the agreement with Philips will provide significant financial savings to the Hospital. As noted above, purchased separately, each patient monitor or monitoring station does not constitute major medical equipment. However, in aggregate, the cost of all needed patient monitor replacements (including the operating rooms and other areas together) totals approximately \$7.5 million, including freight charges and on-site training.

We are fully prepared to submit a CON for the \$6.5 million major replacement of patient monitors, separating the operating room and recovery area project due to its immediate and urgent need. However, we respectfully request OHCA's review regarding the question of whether replacement of routine patient care support equipment purchased in the aggregate should be subject to CON review. We note that if OHCA determines the need for a CON based on the aggregate annual cost of replacing routine patient monitoring equipment, there is the anomalous result that only larger hospitals will be subject to CON review for patient monitor replacements. This is because the amount of patient monitoring equipment needed by a larger hospital, in the aggregate during a replacement project, is more likely to exceed the \$1 million CON threshold than a similar replacement project undertaken by a smaller hospital. We suggest that defining this routine monitoring equipment based on the cost of the individual monitors and monitoring stations would be a more fair and consistent approach.

We therefore respectfully request that OHCA determine that no CON is required for the purchase of patient monitors or monitoring stations, where the cost of each monitor or station is below the applicable CON threshold, regardless of whether the equipment is purchased in aggregate through a special vendor arrangement.

Alternatively, we ask that OHCA determine that YNHH's initial replacement of monitors for the operating rooms and recovery areas, the aggregate cost of which is less than \$1 million, does not require CON review and may proceed immediately.

Please forward any correspondence to:

Jean Ahn

2004 DEC 30 PM 2: 20

CONNECTICUT OFFICE OF HEALTH CARE ACCESS

# State of Connecticut Office of Health Care Access Letter of Intent/Waiver Form Form 2030

All Applicants must complete a Letter of Intent (LOI) form prior to submitting a Certificate of Need application, pursuant to Sections 19a-638 and 19a-639 of the Connecticut General Statutes and Section 19a-643-79 of OHCA's Regulations. Please submit this form to the Commissioner of the Office of Health Care Access, 410 Capitol Avenue, MS# 13HCA, P.O. Box 340308, Hartford, Connecticut 06134-0308.

#### SECTION I. APPLICANT INFORMATION

If there are more than two Applicants, please attach a separate sheet of paper and provide additional information in the format below.

	Applicant One	Applicant Two
Full legal name	Yale-New Haven Hospital	:
Doing Business As	Yale-New Haven Hospital	
Name of Parent Corporation	Yale-New Haven Health Services Corporation	
Mailing Address, if Post Office Box, include a street mailing address for Certified Mail	20 York Street New Haven, CT 06504	
Applicant type (e.g., profit/non-profit)	Non-Profit	
Contact person, including title or position	Jean Ahn Director	:
Contact person's street mailing address	Yale-New Haven Hospital 20 York Street New Haven, CT 06504	
Contact person's phone #, fax # and e-mail address	(203) 688-2609 (Phone) (203) 688-5013 (Fax) Jean.Ahn@ynhh.org	

## SECTION II. GENERAL APPLICATION INFORMATION

•	Pr	roposal/Project Title:
	Pι	urchase of Patient Monitors
•	Ту	pe of Proposal, please check all that apply:
		Change in Facility (F), Service (S) or Function (Fnc) pursuant to Section 19a-638, C.G.S.:
		<ul><li>New (F, S, Fnc)</li><li>□ Replacement</li><li>□ Additional (F, S, Fnc)</li></ul>
	: :	☐ Expansion (F, S, Fnc) ☐ Relocation ☐ Service Termination
-		☐ Bed Addition` ☐ Bed Reduction ☐ Change in Ownership/Control
		Capital Expenditure/Cost, pursuant to Section 19a-639, C.G.S.:
	*.	Project expenditure/cost cost greater than \$ 1,000,000
	*	Equipment Acquisition greater than \$ 400,000 (in aggregate)
	;	☐ New ☒ Replacement ☐ Major Medical
		☐ Imaging ☐ Linear Accelerator
		Change in ownership or control, pursuant to Section 19a-639 C.G.S., resulting in a capital expenditure over \$1,000,000
	a.	Location of proposal (Town including street address):
		20 York Street, New Haven, CT 06504
	b.	List all the municipalities this project is intended to serve:
		Please see response to Question 3 in Project Description.
	C.	Estimated starting date for the project:
		Upon determination by OHCA

d.	Type of project:10	(Fill in the appropriate number(s)
	from page 7 of this form)	

Number of Beds (to be completed if changes are proposed)

Туре	Existing Staffed	Existing Licensed	Proposed Increase (Decrease)	Proposed Total Licensed

#### Not Applicable.

#### SECTION III. ESTIMATED CAPITAL EXPENDITURE INFORMATION

a.	<b>Estimated Tota</b>	Capital Expenditure:	<u>\$6,500,000</u>
----	-----------------------	----------------------	--------------------

b. Please provide the following breakdown as appropriate:

Construction/Renovations	\$
Medical Equipment (Purchase)	
Imaging Equipment (Purchase)	
Non-Medical Equipment (Purchase)	\$6,500,000
Sales Tax	
Delivery & Installation	
Total Capital Expenditure	\$6,500,000
Fair Market Value of Leased Equipment	
Total Capital Cost	\$6,500,000

#### Major Medical and/or Imaging equipment acquisition:

Equipment Type	Name	Model	Number of Units	Cost per unit

Note: Provide a copy of the contract with the vendor for major medical/imaging equipment.

See proposed quotes in Appendix 1.

c. Type of financing or funding source (more than one can be checked):

$\boxtimes$	Applicant's Equity		Lease Financing		Conventional Loan
	Charitable Contributions		CHEFA Financing		Grant Funding
$\boxtimes$	Funded Depreciation		Other (specify):	77.00.12	
SE	CTION IV. PROJECT DESC	RIPTIC	ON		
pag	ase attach a separate 8.5" X ge description of the proposed posed project. Please be sui	d projed	ct, highlighting all the	impor	tant aspects of the

If requesting a Waiver of a Certificate of Need, please complete Section V.

SECTION V. WAIVER OF CON FOR REPLACEMENT EQUIPMENT

I may be eligible for a waiver from the Certificate of Need process because of the following: (Please check all that apply)

This request is for Replacement Equipment.
 The original equipment was authorized by the Commission/OHCA in Docket Number: \_\_\_\_\_\_.
 The cost of the equipment is not to exceed \$2,000,000.
 The cost of the replacement equipment does not exceed the original cost increased by 10% per year.

Please complete the attached affidavit for Section V only.

- 32. Other Non-Clinical

#### SECTION IV. PROJECT DESCRIPTION

1. Currently what types of services are being provided? If applicable, provide a copy of each Department of Public Health license held by the Petitioner.

Yale-New Haven Hospital (YNHH) is the primary teaching hospital for the Yale School of Medicine and a major community hospital for residents of the greater New Haven area. The Hospital offers a full array of primary to quaternary patient services; many quaternary services have been designated as regional or national referral services.

A copy of YNHH's Department of Public Health (DPH) License is presented as Appendix 2.

2. What types of services are being proposed and what DPH licensure categories will be sought, if applicable?

No new services are being proposed. Patient monitors do not comprise a service, and additional DPH licensure is not required for patient monitors.

Yale-New Haven is proposing to acquire replacement patient monitors and monitoring stations in patient care locations throughout the Hospital, excluding operating room and recovery area monitors which are addressed in a separate CON Determination. Patient monitors are electronic devices routinely used in acute care hospitals to continuously monitor a patient's vital signs and other physiological conditions. This information is communicated to hospital clinical personnel through centrally-located patient monitoring stations. Each patient monitor or monitoring station could be purchased separately, and these do not constitute major medical equipment. Each patient monitor costs between approximately \$10,000 and \$40,000. Each monitoring station costs between approximately \$40,000 and \$100,000. This equipment must be replaced routinely and has a useful life of approximately ten years.

Yale-New Haven Hospital (YNHH) is negotiating with Philips Medical System to acquire a large number of patient monitors and monitoring stations. In aggregate, the estimated total cost for all the monitors needed is \$6.5 million, which includes freight charges and on-site training. Philips Medical has offered a significant discount as the preferred monitor and associated accessories supplier for the Hospital if it agrees to purchase the bulk of its needed monitor equipment from Philips. The arrangement also provides excellent pricing for a parts agreement, all accessories and consumables.

YNHH is filing this letter of intent to commence a CON process to obtain OHCA's approval of the aggregate purchase of patient monitors and monitoring stations if OHCA determines that CON approval is required. However YNHH respectfully requests that OHCA examine whether the aggregation of purchases and replacement of this relatively minor patient monitoring equipment should be treated as a major capital expenditure for CON purposes or recognized as an

aggregate purchase of equipment not subject to CON approval. Additionally, if the CON determination decision is based on the annual aggregate cost of a patient monitor purchase/replacement plan, please note that the result will be to require CON proceedings for such equipment purchases/replacement for larger acute care hospitals and not for smaller hospitals. This is because the amount of patient monitoring equipment needed by a larger hospital, in the aggregate during a replacement project, is more likely to exceed the \$1 million CON threshold than a similar replacement project undertaken by a smaller hospital.

## 3. Who is the current population served and who is the target population to be served?

The current population served and the target population to be served include the residents of Ansonia, Bethany, Branford, Cheshire, Clinton, Deep River, Derby, East Haven, Essex, Guilford, Hamden, Killingworth, Madison, Meriden, Milford, New Haven, North Branford, North Haven, Old Saybrook, Orange, Oxford, Seymour, Wallingford, Westbrook, West Haven and Woodbridge.

#### 4. Identify any unmet need and how this project will fulfill that need.

For safety purposes, patient care support equipment such as patient monitors and monitoring stations necessarily must be replaced at the end of the equipment's useful life or if the equipment is no longer supported by the equipment vendor in terms of parts or service maintenance. This project will replace monitors throughout the Hospital's patient care areas that are either nearing the end of their useful life, or will no longer be supported by the equipment vendor.

## 5. Are there any similar existing service providers in the proposed geographic area?

Not applicable. These replacement monitors do not comprise a service.

## 6. What is the effect of this project on the healthcare delivery system in the State of Connecticut?

Not applicable. These replacement monitors will not affect the healthcare delivery system in the State of Connecticut.

#### 7. Who will be responsible for providing the service?

Not applicable. The replacement monitors do not comprise a service.

#### 8. Who are the payers of this service?

Not applicable. The patient monitors are not a billed service. The payers for YNHH include Medicare, Medicaid, Aetna, Blue Cross, Cigna, Connecticare, HMCPPO, Oxford, PHS, United Healthcare, Workers Compensation, Yale Health Plan and others.
